Objectives: *Upon completion of this activity, the participant should be able to:*

- Identify three indicators that link the interaction of human health and the health of the planet;
- Describe the unique susceptibility of children and the elderly to climate change;
- List three State and or Federal policies addressing climate change;
- Analyze the emerging science in climate change;
- Integrate interventions to lessen the impact of climate change on human health and the environment.

Target Audience:

This activity is designed to meet the educational needs of physicians and nurses whose patients may be affected by climate change.

Accreditation:

Physicians: USF Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

USF Health designates this educational activity for a maximum of 2 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurses: The University of South Florida, College of Nursing is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. This activity is for 2 contact hours.
